**NOTE:** It is important to identify which Jabra Elite Sport model you currently own before purchasing replacements. There are two versions of the Jabra Elite Sport: a 9-hour model and a 13.5-hour model. To determine which model you own, download the Jabra Sport Life app and find the Product ID in the Technical info section. If the product ID is 246F, it is the original Jabra Elite Sport with 9 hours battery. If the product ID is 2479, it is the new black version with 13.5 hours. If the product ID is 2478, it is the lime/grey version with 13.5 hours. Additionally, the different models cannot be used interchangeably (e.g. the lime/grey 13.5-hour earbud with a black 13.5-hour earbud).

## 2.3 Using a replacement earbud

---

Before using a replacement earbud it will need to be synced with your current earbud and the charging case.

To sync, place the replacement earbud into the charging case along with your current earbud, and close the lid. The charging case's LEDs may flash purple to indicate the firmware is being updated. Please wait until the LEDs stop flashing purple before opening the charging case and using the Jabra Sport Elite.

For firmware update information, see Section 7.10.

Please note that if the replacement earbud was the right earbud, you will need to re-pair the Jabra Sport Elite to your smartphone, and then re-update the firmware. See Section 5.1 and Section 7.10.

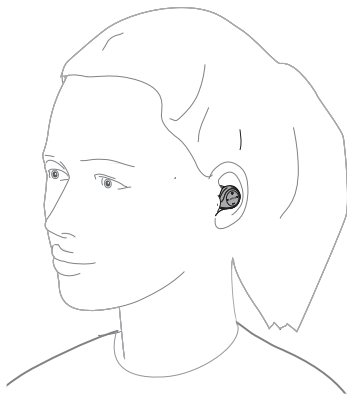

## 2.4 Using a replacement charging case

Before using a replacement charging case it will need to be synced with your current earbuds. The charging case should also be charged for 1 hour before placing the earbuds inside it.

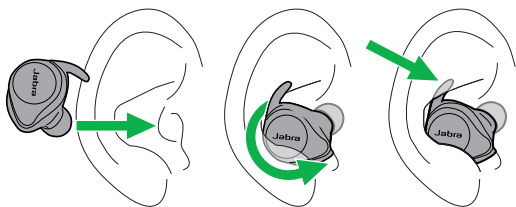

To sync, place your current earbuds into the replacement charging case, and close the lid. The charging case's LEDs may flash purple to indicate the firmware is being updated on the replacement charging case. Please wait until the LEDs stop flashing purple before opening the charging case or using the Jabra Sport Elite.

For firmware update information, see Section 7.10.

### 3. How to wear

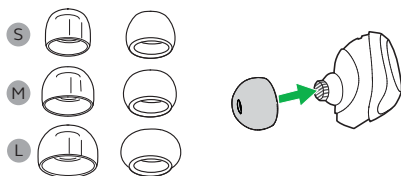

The top of the EarWing should fit tight into the ridge of the ear.

### 3.1 Changing EarGels

---

For the optimal audio experience, try each of the different EarGel sizes. The fit should feel tight and secure in your ear.

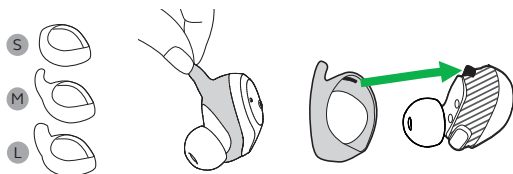

### 3.2 Changing EarWings

---

For the most secure fit during your workout, and for accurate heart rate monitoring, try each of the different EarWing styles.

Remove the current EarWing and pull the new EarWing onto the earbud, as shown. You may have to stretch the EarWing into position.

## 4. How to charge

The Jabra Elite Sport offers up to 4.5 hours of playtime (depending on the model). With 2 full recharges in the charging case, you can enjoy up to a total of 13.5 hours of on-the-go battery.

### 4.1 Charging the earbuds

---

To recharge the earbuds, simply place them in the charging case and close the lid. The LEDs on the front of the charging case will flash red, yellow or green to indicate the earbuds current battery status.

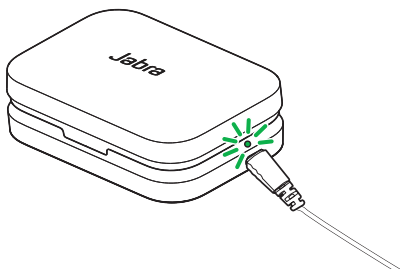

It takes approx. 2 hours to fully recharge the earbuds. If the earbuds are at low battery, 20 minutes in the charging case equals up to 1 hour of playtime.

## 4.2 Charging the charging case

---

To power up the charging case, simply plug it into a USB power supply or wall charger. It takes approx. 2 hours to fully power up.

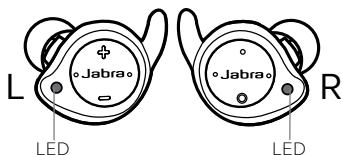

The LED above the USB port will light up red when charging, and green when fully charged. It takes approx 3 hours to fully charge both the earbuds and the charging case together.

The charging case is designed to be charged using a standard USB voltage of 5v. It is not recommended to charge using a power supply with a higher voltage as this may damage the earbuds and/or the charging case.

Note: non-certified chargers may take longer to charge than 2 hours.

## 4.3 What the LEDs mean

---

- High battery
- Medium battery
- Low battery
- Pairing mode/connected
- Earbuds linked/unlinked
- Resetting

CHARGING CASE LED

- High battery
- Medium battery
- low battery

EARBUD STATUS LED

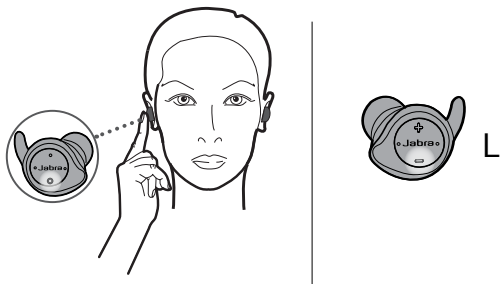

- High battery
- Medium battery
- Low battery
- Firmware updating

# 5. How to connect

## 5.1 Pairing with a smartphone

---

1. Press and hold the **Multi-function button** on the right earbud for 3 seconds until you hear the connection instructions. Release the button.
2. Follow the voice-guided connection instructions to connect to your smartphone.
3. You may need to press and hold the **Volume down** button for 3 seconds on the left earbud to turn it on (only necessary for first time use).

## 6. Jabra sport life app

The Jabra Sport Life app is a free app that offers:

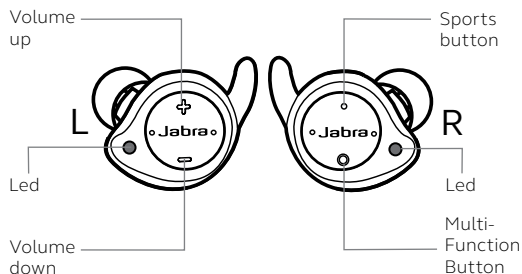

- VO2 Max testing: gives an accurate measurement of your fitness level
- Heart rate monitoring: track and analyze your cardio performance
- Race Time Predictor: accurately estimates your finish time
- Recovery Advisor: helps detect signs of over-training
- Jabra Elite Sport firmware updating

Jabra Sport Life

## 7. How to use

### 7.1 Turn earbuds on/off

---

The earbuds are turned off/on whenever they are placed in the charging case, and the case is closed or opened.

The earbuds can also be turned off/on individually by holding down the **Multi-function** button (right earbud), or the **Volume down** button (left earbud), until the LED flashes.

## 7.2 Single earbud use

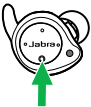

---

The right earbud can be used individually for mono playback or calls. For volume and skip track controls, please use your connected smartphone.

When both earbuds are turned on and are within 25cm range, they will automatically relink.

## 7.3 Calls & music

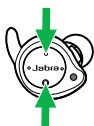

---

Right earbud	Calls & music	
	Play/pause music	Tap the <b>Multi-function</b> button
	Answer/end call	Tap the <b>Multi-function</b> button
	Reject call	Double-tap the <b>Multi-function</b> button when there is an incoming call
	Activate Siri/Google Assistant/Cortana	Press (1 sec) the <b>Multi-function</b> button when not on a call.
	HearThrough on/off	Double-tap the <b>Multi-function</b> button when not on a call

---

**Right  
earbud**

**Calls & Music**

Sidetone  
on/off

Press and hold (2 secs)  
the **Multi-function** button  
and the **Sports** button  
simultaneously when not  
on a call

**Left  
earbud**

**Calls & Music**

Adjust volume

Tap the **Volume up** or  
**Volume down** button

Skip track

Press and hold (2 secs)  
the **Volume up** or  
**Volume down** button  
when listening to music

Battery status

Tap the **Volume up** or  
**Volume down** button  
when not on a call or  
listening to music

## 7.4 Sports button

---

When using the earbuds with the Jabra Sport Life app you can control your workout and listen to on-the-go workout updates by tapping or pressing the **Sports** button.

Right earbud	Before workout
--------------	----------------

Start Sport app

Tap the **Sports** button

Start workout

Press and hold (1 sec) the **Sports** button

Right earbud	During workout
--------------	----------------

Pause/resume workout

Press and hold (1 sec) the **Sports** button

Listen to On-the-go updates

Tap the **Sports** button

Turn on/off the On-the-go updates

Double-tap the **Sports** button

## 7.5 HearThrough

---

HearThrough utilizes the in-built microphones to enable you to pay attention to your surroundings and engage in conversation without needing to remove the earbuds.

HearThrough settings can be configured using the Jabra Sport Life app.

Right earbud	HearThrough	
	HearThrough on/off	Double-tap the <b>Multi-function</b> button when not on a call

---

Note: Windy conditions may affect the quality of HearThrough.

## 7.6 Sidetone

---

Sidetone is a feature that enables you to hear your own voice when you are on a call. Firmware version 3.8 or higher is required to turn Sidetone on/off.

Right earbud	Sidetone
	Sidetone on/off
	Press and hold (2 secs) the <b>Multi-function</b> button and the <b>Sports</b> button simultaneously when not on a call

Sidetone can also be turned on or off using the Jabra Sport Life app.

## 7.7 Auto power off

---

When the right earbud is out of range or not connected to your smartphone for 15 mins, or has not been active for 1 hour, it will power itself off to save battery.

When the left earbud has not had a link with the right earbud for 15 mins, it will power itself off to save battery.

## 7.8 Multiple call handling

---

The earbuds can accept and handle multiple calls at the same time.

Right earbud	Multiple call handling	
	End current call and answer incoming call	Tap the <b>Multi-function</b> button
	Put current call on hold and answer incoming call	Press and hold (2 secs) the <b>Multi-function</b> button
	Switch between held call and active call	Press and hold (2 secs) the <b>Multi-function</b> button
	Reject incoming call, when on a call	Double-tap the <b>Multi-function</b> button

## 7.9 Voice guidance and languages

---

Using the Jabra Sport Life app, the voice guidance can be turned on/off, and the language can be changed.

The following languages are available: English (US), French, German, Japanese, Chinese.

## 7.10 Update firmware

---

The Jabra Elite Sport can be updated to the latest firmware version using the Jabra Sport Life app. You will be automatically notified in the app when a firmware update is available, or you can find it under 'Headphone Settings' in the 'Settings' menu.

When the Jabra Sport Elite is firmware updating, please allow the update to fully complete, which can take up to 15 minutes. It is recommended to wait 10 seconds after the LEDs stop flashing purple before opening the charging case.

## 7.11 How to reset

---

Resetting the earbuds clears the list of paired devices. After resetting, it is necessary to re-pair the earbuds to your smartphone.

Right  
earbud

Reset

Reset the pairing  
list

Press and hold (5 secs) the **Multi-function** button and the **Sports** button until the LED flashes purple.

# 8. Support

## 8.1 FAQ

---

View the FAQs on [Jabra.com/help/elitesport](https://www.jabra.com/help/elitesport)

## 8.2 How to care for your earbuds

---

- Always store the earbuds in the charging case and safely protected.
- Avoid storage at extreme temperatures (above 65°C/149°F or below -10°C/14°F). This can shorten battery life and may affect the earbuds.
- The charging case is designed to be charged using a standard USB voltage of 5v. It is not recommended to charge using a power supply with a higher voltage as this may damage the earbuds and/or the charging case.
